

Monsoon Universal Single Pumps

Monsoon Universal pumps remove the guesswork from pump selection. Fully automatic, they will function under both positive and negative head conditions and are suitable for installation into an open vented hot and cold water system. Universal Monsoon pumps do not require a gravity flow of water to start.

Application

Universal single pumps can be used in pairs to boost hot and cold water supplies independently, or as a single pump to boost a water supply as required.

They can be used to:

- Boosting a hot water service to a common mixer where the cold supply is mains fed.
- Boosting hot and cold supplies separately.
- Increasing water pressure to a combi boiler via a break tank.

Features

- Robust brass bodied construction
- 2.0 - 4.5 bar performance options
- Continuously rated
- Hard faced carbon/silicon carbide seal
- Supplied with 22 mm push-in x 300 mm anti-vibration flexible hoses with integral isolating valves.
- G ¾ threaded connections.
- Pre-wired with 1.5 metre cable
- Anti-vibration feet.
- 5-year guarantee (subject to conditions)
